

INTERNSHIP | PROJECT WORK

NÜWIEL is a Hamburg based startup developing electric transportation solutions for last mile logistics.

NÜWIEL is founded in 2016 by Natalia Tomiyama, Sandro Rabbiosi and Fahad Khan. Our vision is to improve air quality in big cities and reduce negative impact of traffic emissions on cities, environment and public health by providing an alternative mobility: intelligent electric bike trailer.

We are looking for bright, motivated and enthusiastic students in the field of **electronics / embedded engineering**. The aim is to continue the development of the PCB, run simulations and support by prototyping.

YOUR MISSION:

- Diverse soldering work and prototyping (patches and small repairs)
- Simulations in MatLab /LTspice
- Support in assembly and test in the area of electronics

YOU BRING:

- Bachelor's degree in Electrical Engineering or equivalent
- Experience in PCB design preferably in Altium environment
- Creativity and ability to work with multiple alternatives
- Ability to solve problems in critical situations, working independently and with minimal supervision
- Good English skills

WE OFFER:

- Immense learning and a tech startup experience
- International, supportive and friendly team
- Direct contribution to the product development and impact on the environment
- Room for creativity, own ideas and exploration
- Support in personal and professional development
- Internship, project work, thesis opportunities

Interested? Please send your CV and other relevant documents to fahad.khan@nuwiel.de
